## PATIENT CHART, ID

| DOB: Height: 5' 8"

Weight: 200 lbs.

## LAB RESULTS (RECEIVED 26APR2024)

ChlamydiaGenital:

GonorrheaGenital:

Hiv:

Negative

Non-reactive

CreatinineUrine:

115.6

## PATIENT CONSULT COMPLETED: 15MAR2024, 10:39 AM

### **SOAP NOTES**

#### Dr. - 27APR24 | 4:02PM

Labs reviewed as benign. Patient otherwise has reported no relevant changes and remains a good candidate for PrEP. Script sent for PrEP per prior note.

#### Dr. - 15MAR24 | 10:39AM

Annual video interview conducted. Patient is tolerating medication well with no side effects. Will continue with PrEP pending satisfactory labs.

#### PRESCRIPTION DETAILS

Prescription for Truvada, 200-300mg oral tablet with 2 re-fills sent by Dr. at 4:04PM, 27APR2024. Diagnosis code: ICD-10: Z20.6

Following CDC guidelines and taking into consideration the patient's medical history, my consultation with patient and their risk for HIV infection I am recommending that this patient start Truvada for pre-exposure prophylaxis (PrEP).
